## Company Overview

J P Systems provides professional services for Healthcare IT requirements analysis, medical terminology standards, business analysis, UML data modeling and enterprise architecture. We are a force behind the modeling of ontologies and electronic health records systems for the Veterans Health Administration (VHA) and the HHS ONC Federal Health Architecture (FHA). We have 17 years of experiences with large federal Healthcare IT systems. Our personnel are active with standards organizations such as HL7, LOINC & SNOMED Intl. We provide support in all areas for medical terminologies and reference data.
