J P SYSTEMS ORGANIZATION CHART

J P SYSTEMS, INC. ORGANIZATIONAL CHART

Ver. 2.0 09/27/16

CONSULTING SERVICES DIVISION

- Founded in 1983, J P Systems provides professional services for IT systems design and business architecture. We specialize in Healthcare IT and data architecture. We provide Subject Matter Experts based on client needs. Our personnel are active with standards development organizations such as HL7, LOINC & SNOMED International. We perform data modeling for Healthcare IT programs such as the Federal Health Architecture (FHA) effort led by HHS ONC. We are experienced in VA and DoD VLER interoperability consulting. We perform:
 - Interoperability Planning for clinical data exchange
 - Data Quality Analysis for Clinical Document (CDA) Partner Exchanges
 - Data and Process Modeling in UML
 - HL7 and other Standards Development
 - Clinical Terminology Standards
 - Medical Informatics
 - Shareholder and Community Engagement

JPSYS EMPLOYEE PORTALS

- ClickTime.com is for recording your hours worked and for expenses
 - Record your hours worked starting with your first day
- BambooHR.com is for Human Resources Data
 - Employee records, document signatures, company announcements, benefit tracking, PTO plans and recruiting
- ShareFile.com Company Repository
 - Cloud storage solution by Citrix for document storage for projects, administrative purposes and proposals
- Dropbox.com for storage and transferring large files

CLICKTIME.COM TIMEKEEPING PORTAL

- ClickTime is a web based portal used to records your hours
- Hours must be recorded daily with the proper charge numbers
- We must be DCAA compliant as a Federal prime contractor, meaning our hours worked must be entered every day
- The federal government may audit your timesheets
- Paid time off (Holidays, Vacation and Sick time) is also entered into ClickTime
- There is a ClickTime phone app, but it is not DCAA compliant and hence can't be used
- If you have to record hours late, you must enter a reason for the late entries. Entering a "." is not acceptable just to fill the space. For example: enter "Power outage" or "Internet is down" other valid reason.

USING CLICKTIME

When you login to ClickTime, go to the 'Day View' tab to enter your hours for today. Enter your hours daily.

Do not use the stop watch tool, just enter the total hours you spend on each project and enter brief comments on what you did.

You will record your Paid Time off in ClickTime using J P Systems as the client name and Paid Time Off as the Task ID.

All time is charged to a project charge number called a CLIN. The charge numbers have three parts:

1. Client name e.g. Terminology Standards Support (TSS) or JP Systems for internal support
2. Task Order Number / Project Year (called Period of Performance POP)
3. Project Name called a CLIN

PAYROLL

Pay periods are the 1st to the 15th and the 16th to the end of the month.

Payroll is semimonthly & checks are cut on the 10th and the 25th every month.

You may sign up for direct deposit of your paycheck or we will mail your checks to the street address listed in your record in Bamboo HR. When you move, please change your street address in Bamboo HR (BHR). If you sign up for direct deposit, you will receive an email on payday with a link to login to the Redwing pay advice portal. All of your paycheck stubs may be seen there.

To report your hours to Payroll, submit your timesheet at the end of each week. The week starts on a Sunday and ends on Saturday. When you are done for the week, or very early on Monday morning, go to the ClickTime Timesheet tab and press the SUBMIT button to send your hours data to your approver. Your approver will review your hours and charge numbers. If there is a problem with charge numbers or other issues, your timesheet will be rejected and sent back with comments for your correction and resubmission. Once approved, your hours are sent to Accounting for payroll.

Your available Paid Time Off totals are shown on your paycheck stubs/ pay advices.

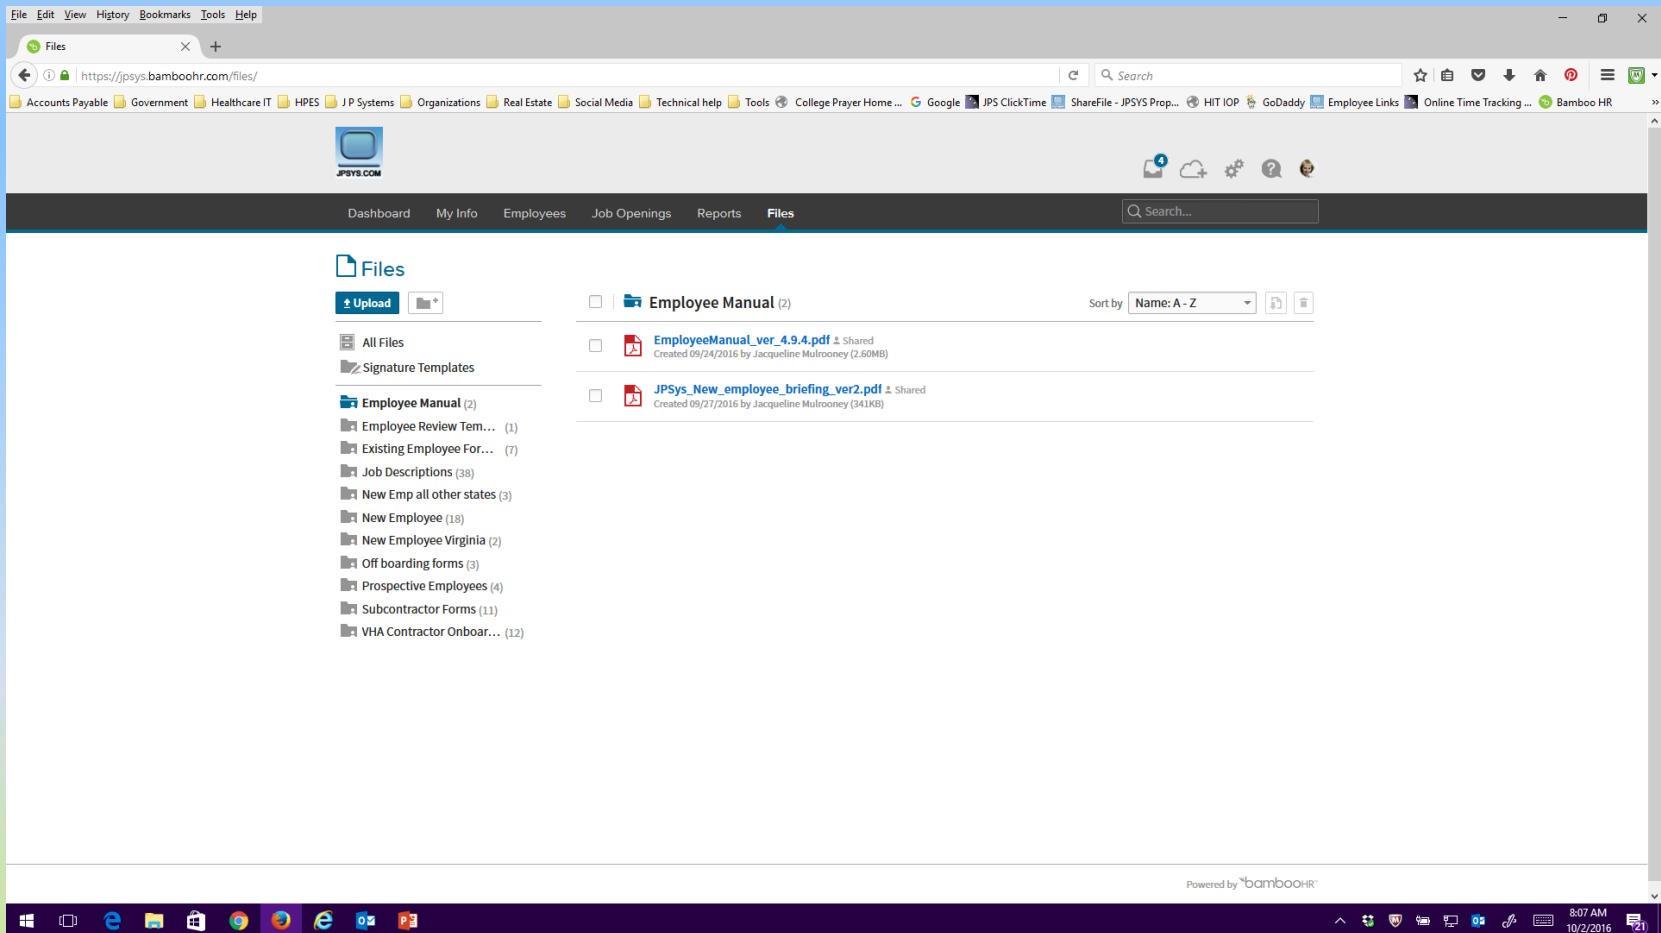

For payroll or timesheet questions, contact Jodee Hecht Jodee.hecht@jpsys.com. For charge number (CLIN) questions, please contact your Project Manager.

BAMBOO HR HUMAN RESOURCES PORTAL

- Bamboo HR (BHR) stores employee information, PTO info, insurance plan deductions, your emergency contact information & data about your job
 - Bamboo has its own email system which assigns you tasks (forms to sign electronically)
 - Can display a dynamic organization chart (see icons at the upper right under the Employees tab)
 - Displays and sends out company announcements
 - Bamboo displays Paid Time Off (it may be out of synch with your paystubs for a few days each month)
 - BHR has a built in electronic signing capability for documents
 - Bamboo stores employee documents *except* for I-9s
- Request paid time off (Vacation and Sick) through Bamboo. Sick and vacation accrue with every paycheck. Holidays are loaded in once a year.
- Download the Bamboo HR smart phone app
- You must either apply for insurance plans or refuse them in writing.

BAMBOOHR.COM HR PORTAL DOCS VS. FILES

- ❑ Stores your signed HR documents in the Documents Tab
- ❑ Has the Employee Manual and all employee forms in your Files tab at the top. See below.

The screenshot displays the BambooHR Files interface. The browser address bar shows the URL <https://jpsys.bamboohr.com/files/>. The navigation menu includes Dashboard, My Info, Employees, Job Openings, Reports, and Files. The main content area is titled "Files" and features an "Upload" button and a search bar. A list of files and folders is shown, including:

- Employee Manual (2)
- EmployeeManual_ver_4.9.4.pdf (Shared, Created 09/24/2016 by Jacqueline Mulrooney (2.60MB))
- JPSys_New_employee_briefing_ver2.pdf (Shared, Created 09/21/2016 by Jacqueline Mulrooney (341KB))

The left sidebar contains a list of folders and their contents:

- All Files
- Signature Templates
- Employee Manual (2)
- Employee Review Tem... (1)
- Existing Employee For... (7)
- Job Descriptions (38)
- New Emp all other states (3)
- New Employee (18)
- New Employee Virginia (2)
- Off boarding forms (3)
- Prospective Employees (4)
- Subcontractor Forms (11)
- VHA Contractor Onboar... (12)

The footer of the page indicates it is "Powered by bambooHR". The Windows taskbar at the bottom shows the system time as 8:07 AM on 10/2/2016.

JPSYS NEW EMPLOYEE ONBOARDING TASKS*

To do on day 1:

- Visit the [JPSys New Employee Page](#) and the [JPSys Employee Links](#) web pages at www.JPSys.com.
- **Login to your JPSYS email.** The link to the web based email is on the Employee Links page. You will receive emails with invitations to the various portals.
- **Download and read the Timesheet Instructions from the New Employee page.**
- **Login to ClickTime and view the Help tab as needed.**
- **Download and complete your I-9 form at a local bank with a notary.** Bring your passport or other forms of ID and print pages 8 and 9 of the I-9 form for the notary. The notary serves as our company representative. They must sign the form and view your ID.
- **Login to Bamboo HR** and process the forms in your Bamboo HR email box (a separate email system from your JPSys.com email).
- **Visit the Employee Notices page** to download your Federal and State notices www.jpsys.com/employee_notices If you work virtually, you must post these in your workspace.

* This is not a complete list of all tasks. Please contact your Project Manager for all needed items

BENEFITS INSURANCE PLANS*

Anthem Blue Cross Blue Shield Medical, Anthem Blue Vision, Anthem Complete Dental & Anthem Life

- We cover the cost for full time employees for these 4 insurance plans.
- You must work at least 30 hours a week to qualify for coverage as a part time employee.
- Eligibility for Anthem Blue Cross Blue Shield insurance starts after a waiting period of a whole calendar month on the first day of the next full month. If you start work on October 3, your plan eligibility start December 1. If you start work on Sept 30, your plan eligibility starts on November 1.
- You must either apply for insurance plans or refuse them in writing.
- Anthem medical plan, called Keycare, is a nationwide plan, a PPO
- Medical, Dental and Vision plans may be accepted or declined separately. (e.g. you can accept medical for yourself, decline vision, but accept dental for whole family).
- Dependent coverage can be selected as desired. Cost of all dependent coverage is deducted from your paycheck for FT and PT.
- Anthem Life Insurance is a separate application.
- See http://www.jpssystem.com/employee_benefits.html

* It is the intention of JPSSYS to offer an attractive portfolio of benefits on an ongoing basis. We do however reserve the right to change, plans and offerings or eliminate benefit plans at our sole discretion.

OTHER BENEFITS*

- **Paid Time Off**
 - For full time employees: Over time you will accrue two weeks of vacation and 5 days of sick time (40 hours). Initially your sick and vacation time available hours start at 0.
 - For full time employees: there are ten holidays a year, one day may be used as a floating holiday instead of Columbus day. The list of federal holidays is on the Bulletin Board http://www.jpsys.com/employee_bulletin.html
- **401(k) Plan eligibility starts 6 months after your start date.**
 - You must contact us to tell us you want to start on the retirement plan.
 - Contributions can be a fixed amount or a percentage
 - We contribute 3% - it is not just a match.
- **Volunteer Day:** One day a year we pay you to volunteer at an IRS recognized charity. Work may be related to your job or totally different. See the Employee Manual for details.
- **Education Benefit:** See the Employee Manual
- See http://www.jpsys.com/employee_benefits.html

* It is the intention of JPSYS to offer an attractive portfolio of benefits on an ongoing basis. We do however reserve the right to change, plans and offerings or eliminate benefit plans at our sole discretion.

TRAVEL

- All travel must be pre-approved in writing by the client
- Client is very sensitive to all travel costs
- The client for the Terminology Standards Support program will not pay for rental cars. You may rent a car, but it is not reimbursed.
- Save all out of town meal and food purchase receipts.
- Save taxi receipts.
- You will be reimbursed in accordance with federal travel regulations.

- If you do not have a receipt, we can not reimburse you. Hand write a receipt and have vendor date & initial it if nothing else is available,

- Submit your travel expenses through ClickTime. Scan all your receipts and upload them.

LEADERSHIP

Ms. **M**ulrooney, is the President and founder of J P Systems, Inc. She has 36 years of business and technical consulting experience. She is highly experienced in requirements analysis, data architecture, software development, business process analysis and the design of Enterprise IT systems. Skills include all phases of project development from feasibility studies, system design, implementation and deployment. She excels in difficult multi-stakeholder enterprise environments while maintaining excellent client relations. She is the author of www.HealthcareITInteroperability.com.

She has been an IT and business consultant to over a 100 companies for JPSys since 1983 including the following industries and agencies: Healthcare, Defense, TV and Broadcasting, Transportation, Financial, Dod Secretary of Defense, Navy, Air Force, and Army.

She oversees all company departments including Contracts, HR, Finance, Sales and Marketing, R & D, Communications, and performs CEO functions for J P Systems. Ms. Mulrooney founded J P Systems in 1983. She designs and develops websites and graphics. She develops the companies' business strategies, oversees all contracts and actively monitors the finances. She provides financial and technical guidance along with process improvements and revenue stream improvements for her clients.

LEADERSHIP

Mr. **M**ulrooney, Exec. Vice President has over 28 years of software design and development experience, of which the past 16 years have concentrated on Health IT and 14 years on Enterprise Architecture. Mr. Mulrooney currently serves as a Standards Architect for the U.S. Veterans Health Administration under the auspices of the Chief Health Informatics Officer. In this capacity, he is the Lead Modeler for the Federal Health Information Model (FHIMS.org), which is a logical information model which, under the auspices of the Federal Health Architecture, is intended to guide the information exchange requirements and Information Architectures of the partner federal agencies.

Mr. Mulrooney is experienced in Enterprise Architecture, RM/ODP, Zachman Framework, the Federal Enterprise Architecture (FEA) and Service Oriented Architecture for healthcare. Within VHA, he serves as an advisor to eHMP development projects to provide guidance regarding the enterprise's architectural initiatives and interoperability standards. He is also experienced in the full system development life cycle, USDP, RUP, OOA, OOD, UML and ER modeling, EDI, database management systems, and business process reengineering. He has been a consultant on two VA T4 efforts: VLER Interoperability and VistA Evolution.

LEADERSHIP

Bruce Amato is our Program Manager for the VA IDIQ. He is an experienced Project and Program Manager and a subject matter expert in the VA systems, Health Information Technology and Healthcare Transformation.

Corporate Leadership | Recruiting | Mergers & Acquisitions | Strategy Creation
P&L Responsibility | Large-Scale Organizational Challenges | Turnaround & Change Management

Tech-savvy business executive with 30+ years of success in organizational leadership, organizational improvement, and general management in government, business, education and not-for-profit sectors. Cross-functional leader who energizes successful, stagnant, or declining companies in diverse lines of business, surmounting barriers to growth and delivering on commitments to achieve revenue and profit growth. Effective communicator, skilled contract negotiator, and leader with proven ability to institute and carry out initiatives that drive positive change, improve efficiency and increased profitability. Trusted advisor and confidante who possesses active DoD Secret and VA NACI clearances. Train and mentor future corporate leaders and drive improvement in human capital performance. Core competencies include:

Strategic Planning & Implementation | Team Recruitment, Training, & Motivation
Healthcare IT Management | IT Systems Lifecycle Management | High-Level Contract Negotiations
Information Technology Infrastructure Library (ITIL) Certified

LEADERSHIP

Jay Lyle *Interoperability and standards consultant, senior business architect, Lead Medical Terminologist, Project Manager*

He is currently a consultant on the VA SDO project. In support of the Federal Health Architecture, Mr. Lyle supports the development of the Federal Health Terminology Model. This includes overseeing the creation of value sets in CDC's PHIN VADs, and the linkage of those value sets to the Federal Health Information Model in support of HHS ONC. This effort involves coordination of terminology experts from multiple partner agencies.

In support of Veterans Health Administration's Standards and Interoperability program, Mr. Lyle provides project management, business analysis, data modeling, healthcare terminology and informatics expertise to Health Terminology Standards related projects. He supports VA Terminology goals at Standards Development Organizations such as HL7 and inter-agency initiatives such as the VA-DOD integrated Electronic Health Record (iEHR) and Federal Health Architecture. His program management advice, planning ability, communication skills and clear thinking is highly valued by our clients.

LEADERSHIP

Dr. Tim Cromwell has over 30 years of Healthcare IT experience in the VHA. He is a Registered Nurse with an earned doctorate in Nursing. He is an experienced Project and Program Manager and a subject matter expert in the VHA VLER and VistA systems, Clinical Informatics, Health Information Technology, Population Health and Healthcare Transformation.

Dr. Cromwell led the Line of Business for Health of the Virtual Lifetime Electronic Record project (VLER), one of the Secretary's Transformational Initiatives. Dr. Cromwell's VLER Health team delivered 11 pilot locations where VA, DoD and private sector partners exchange health information via the Nationwide Health Information Network (NwHIN). Responsibilities included managing a team of terminologists, vocabulary engineers and data architects to develop and sustain standards within VA EHR systems, and to move those systems to interoperability with the private sector. Dr. Cromwell was the VA's main POC for the VA's efforts to join the Nationwide Health Information Network (NwHIN).

For the DoD / VA Interagency Program Office responsibilities included IT and Business Development, and national deployment activities for standards based health information exchange within Department of Defense and the Department of Veterans Affairs. Areas of influence included: standards development and deployment, standards based health information exchange development and deployment, health IT architecture, and analytics related to returns on investment of health IT investments. Within these two positions, Dr. Cromwell controlled lifecycle investments in excess of \$100M, and directed staff whose skill sets included health informatics, medical and nursing terminologies, health IT architecture, analytics and research methodology, business analytics, as well as program management.

Once again – Welcome Aboard!

OUR MISSION: WE ENABLE DATA EXCHANGE BETWEEN ENTERPRISES THROUGH USE OF ARCHITECTURAL PLANNING, ADVANCED TOOLING AND DATA STANDARDS TO INCREASE INTEROPERABILITY AMONG HEALTHCARE PROVIDERS.

The main company website for professional services is www.JPSys.com.

Hint: when writing your email address for those outside the company, **capitalize the JPS part of JPSys**. The reason being that an underline in a document link will make jpsys look like **ipsys**. You may not get your mail.

For more information on data exchange, see HealthcareITInteroperability.com

Also see our data models at Federal Health Information Model at www.fhims.org.
