With decades of experience in large scale healthcare systems, we identify and develop disruptive innovations to turn concepts into an industry — helping our clients to cut cost and save time. Founded in 1983, our deep knowledge of international clinical data standards and reference terminologies serve as a foundation on which to architect data for exchange.

- Enterprise Architecture
- Clinical Data Structures for Machine Learning
- Data and Process Modeling
- Interoperability Planning
- Medical Informatics
- Standard Clinical Terminologies
